Chamberlin plc is made up of 4 subsidiaries and 2 Divisions – Foundry and Engineering.

Within our Foundry Division, comprising Chamberlin & Hill Castings Ltd and Russell Ductile Castings Ltd, we produce high quality iron castings in various metal grades ranging from 0.1kg to 5,000kg in weight for the automotive, construction, power generation, steel, rail and a variety of industrial product sectors producing circa 17,500 tonnes of castings per year.

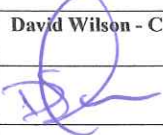

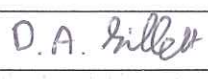

In our Engineering Division, comprising of Petrel Ltd and Exidor Ltd, Petrel Ltd produces certified lighting products for use in hazardous areas such as petrochemical production facilities, and a range of control gear and electrical installation products. Exidor is a long established and leading supplier of specialist emergency exit hardware and door furniture, i.e. the crash bars fitted to fire escape doors that allow rapid opening in the event of an emergency.

As a UK based manufacturer, we have made ourselves aware of the importance and consequential impacts our operations have on the environment. Environmental management is considered to be a key part of business strategy.

Our commitment to care for the environment is translated into company policy in the following ways:

- Complying with the requirements of all relevant environmental legislation and other requirements, including local environmental permits, approved codes of practice and guidance, meeting any set emission limits and standards laid down, and use best available techniques in order to control impacts on the environment;
- Documenting, implementing and maintaining an effective Environmental Management System (EMS) with robust policies, procedures and practices to continual improvement;
- Setting and reviewing local, site specific, environmental objectives, paying particular attention to managing significant aspects and impacts of that operation;
- To actively reduce pollution risk, atmospheric emissions, waste quantities, energy usage, and where practical, to reduce the consumption of raw materials, in line with set objectives;
- Raising awareness and encouraging participation from, and training employees;
- Assessing the environmental impact of all historic, current and likely future operations;
- Making the policy available to employees, interested parties and members of the public upon request.

The company is committed to the successful implementation of this policy and each local Managing Director has signed their commitment below to ensure that the necessary financial, manpower and other resources are made available to satisfy these requirements.

David Wilson - CHC Walsall	Michael Kent - CHC Leicester	Bruce Laing - RDC	David Gillett - Exidor	Tony Glasscoe - Petrel
