

Machining Solutions

Growth Through Excellence

Since establishing the service over 20 years ago, Russell Ductile Castings has seen a continued growth in machining and other value added processes. This service has been developed to assist our customers, enabling fully completed machined parts to be delivered directly to the point of use. Russell Ductile Castings has built up a portfolio of specialist engineering and machining companies who can meet the requirements and exacting standards of our customers.

A One Stop Shop

The benefits of Russell Ductile Castings supplying components in the fully machined and finished condition are:

- Elimination of defective castings - which means that there are no lost machining costs
- Reduced administration costs - more cost savings
- Volume/Demand flexibility - reduces planning production costs
- Infinite plant list - cost effective machining methods
- Reduces need to stock - cost savings on planning/storage etc.

- Established service and expertise - long term security and confidence
- Low or no capital investment - reduces the capital employed in the business. Assembled/Kit capability (One stop shop) - no machining costs and line side delivery
